THE TOBACCO CONVENTION.

Will it Accomplish Good Results.

The street railway and water works questions have so absorbed public attention for the past week that the tobacco convention which convenes to-morrow afternoon has partially been lost to sight. The committee of arrangements, however, have been busily engaged in perfecting the programme, and the convention promises a large attendance and liberal support.

The most enthusiastic representative will scarcely expect to accomplish more in the way of reform than the initial steps pointing in that direction, but it will be apparent to the most skeptical mind that a free and full discussion of the tobacco industry will result in a broader and more intelligent knowledge, which will be of value to the grower as well as the dealer.

Many farmers in Rock and Dane counties have raised their first crop of tobacco this year. Unlike any other product of the farm, the tobacco plant in its rapid development, requires not only careful handling and proper treatment at the right time, but also a variety of knowledge, which can only be acquired by investigation and experience. In speaking of this industry we often boast that sixty days will produce a crop of tobacco, too often overlooking the important fact that its value is largely determined six months later by the care which it has received in the process of curing.

Tobacco has done more for Southern Wisconsin in the past five years than any other single industry. It has furnished labor to the laboring classes, a liberal competency to the grower and dealer, and permanent wealth to the state. In view of these facts the tobacco convention will no doubt interest to a greater or less extent, all classes. Lippin's hall has been secured for the use of the convention, with the Bower city band in attendance.

DANE, Dane Co., Wis., Oct. 12, 1885. S. B. Smith, L. F. Bliss, A. M. Valentine, C. B. Conrad, and L. B. Carle, Committee, Janesville, Wis.

GENTLEMEN—In answer to your request, to be informed of the number of persons from different localities who would probably attend the tobacco convention to be held in your city on the 13th inst., I have to report that at a meeting of the tobacco growers of the towns of Dane and Vienna, in Dane county, and of the towns of Arlington and Lodi in Columbia county, held at 103-Mile Grove (near Dane) on the 10th inst., four delegates from each town were chosen to attend the convention, and will leave Dane on the C. & N. railway, on the 7:23 a. m. train on the 15th inst., and will reach your city via Afton. Others besides delegates from this locality expressed their intention of attending the convention. Our delegates were chosen with the understanding that the convention would last two days, and according to the programme first published, we think it very attractive.

The names of delegates as recollected are: Arlington—W. Welch, E. Janesville, I. E. Spoonman and A. Anderson. Verona—S. Maynard, Henry Nelson, A. A. Boyce, F. A. Bemis. Dane—P. B. Dean, A. B. Chase, S. Peterson.

Lodi—Dr. A. C. Barry, Jas. McClellan, J. O. Eaton, G. Larson, Hans Nelson. Most of the delegates will be strangers to your city.

Hoping for good results from the convention, I am, Gentlemen, Yours most respectfully, A. A. BOYCE.

THE FIRST REGIMENT.

Resignation of Col. Britton and Lieut. Col. McNeenagh.

Special orders issued by Governor Dink, as commander-in-chief, accept the resignations of Col. W. B. Britton and Lieutenant Colonel H. W. McNeenagh, of the first regiment, W. N. G. These resignations have been in the hands of the governor for some months, and now at the request of the officers named, the resignations have been accepted. Yesterday the governor issued commissions to Maj. S. J. Lewis, of Monroe, to the vacant colonelcy, and Capt. J. B. LaGrange, of Janesville, to the vacant lieutenant colonelcy, while Capt. Wm. Rolin, of Madison, was made major.

While we regret that Col. Britton and McNeenagh retire from the regiment, we congratulate the new officers, especially Colonel LaGrange, of this city, knowing that he is an officer qualified in every way for the duties which he will now assume.

SUNBEAM—Great credit is due to Nash & Son, the enterprising grocers, for their recent importation of a strong, yet delicate article of uncolored Japan tea, known to the experts, and now to the public generally as "Sunbeam Tea." This brand has been selected, as its name implies from the most fully matured crop, and Messrs. Nash & Son have wisely made arrangements to import it only in perfection Tea cans, so that it cannot possibly lose its aroma and strength, as it might do if packed in any other manner.

The Weather.

At seven o'clock this morning the thermometer indicated 54 degrees above zero. Cloudy with northwest wind. At 1 o'clock p. m. the register was 61 degrees above zero. Clear with northwest wind. For the corresponding hours one year ago the register was 61 and 69 degrees above zero.

Terribly Shaken.

As the system is by fever and ague, and obstinate as that malady is, never less the stomach Bitters will repair the damage that it does to the constitution, and eradicate every trace of it. Used as a means of prevention, it invariably proves effective. The most malignant forms of malarial disease prevalent in the tropics, the dreaded chills of the Guatemalan coast, the Chagras fever, and other types of malarial malady, yield to and are prevented by it. Not only should it be used on the first symptoms of a chill, but it is necessary in localities where malarial infection exists in the air and water, should take it as a safeguard. It is an incomparable remedy for disorders of the stomach and bowels, for rheumatism, liver activity of the bladder and kidneys, and for debility and bilious ailments.

GOOD FOR OHIO!

The Republicans Carry the State by 20,000 Majority.

The Republicans Claim Three Majority in the Legislature.

Insuring the Return of Senator John Sherman.

New For New York.

Special to the Gazette.

CINCINNATI, Oct. 14th.—The returns continue to come in slowly, but up to noon the indications are that Forester's plurality will run over 20,000. The democratic managers practically concede the republican estimates to be about right. The democrats are claiming the legislature to be tie, but the republicans insist they will have at least three majority on the joint ballot. They are uneasy, however, and the air is full of rumors of returns being held back in the interest of the Sherman parties.

At 12:30 this afternoon the republicans claim the legislature outside of Hamilton county, and have advice from all the precincts in Franklin county which insures the defeat of Allen O. Myers and Young.

The opinion of the neutral parties at this writing is that the legislature is close, with chances in favor of the democrats.

CINCINNATI, Oct. 14th, 2:30 p. m.—Wires working hard all the morning and few returns received. Nothing definite in addition to the former dispatch. The legislature being still in doubt and claimed by both sides.

PERSONAL.

—Mrs. Wilson Lane and her mother, Mrs. O. E. Carter, are in Milwaukee, visiting friends.

—E. O. Barr and his mother Mrs. Barr are guests of Mr. and Mrs. Isaac Forsyth, of the Fourth ward.

—Mrs. J. H. Hall and her sons, Mrs. Emma Humphrey, have returned home from a visit at Mendota, Illinois.

—Prof. Lesquerieux, of the United States geological survey, was a very welcome caller at the Gazette office today.

—Mrs. Stephen Hotelling and daughter, Miss Elie, have gone to Topeka, Kansas, where they will spend a month visiting friends.

—Mr. and Mrs. E. B. Heimstreet returned last evening from their trip through Missouri and Illinois. While on their excursion they viewed the exhibitions at Chicago and Milwaukee, the fair at St. Louis, and saw the procession of Vailed Prophets. Bart says that the street car strike which has been talked of so much, was less noticed in St. Louis than in outside cities.

—A large delegation of the members of the Janesville Anglo-Worm club started this morning for the Peshigo country in the northern part of the state and the Michigan peninsula, for the purpose of hunting "big" game. Each member armed with a "Winchester" rifle, revolver and carrying knife, they are prepared for war, and will remain in the woods for two or three weeks. At the depot this morning we noticed the following named gentlemen composing some of the party: Chas. L. Valentine, Thos. McKoy, Frank Sherer, J. A. Sutherland, Hiram Bump, Geo. Deuster and Robt. McCreath. They are prepared to meet any kind of game, and no doubt will have an enjoyable time.

Grand Opening.

The readers of the Gazette are frequently reminded in glowing terms that some firm is about to give a grand opening. These semi-occasional displays furnish a good opportunity to exhibit artistic taste and almost invariably result in satisfaction to all concerned.

Prompted by a desire to please their numerous patrons the popular military and fancy dry goods house of McClellan & Galbraith have decided to devote Friday evening the 10th inst., to an opening which shall surpass any effort of the past, and to the end the past month has been devoted to the object named. As a result their store presents an appearance of attractiveness rarely equalled and their stock is complete in every department. Every lady in the city will be interested in this opening which will commence Friday evening and continue Saturday during the day and evening. One of the attractions is a beautiful hat which will be given away to some fortunate customer.

It is perhaps unnecessary to add that the firm of McClellan & Galbraith have established an enviable reputation for keeping not only the best stock of goods in their line in the city but they also employ the best artistic talent to be procured besides being practical workers themselves. This opening is the first that they have had in the past four years.

The Cause of Consumption.

Scrofula, manifesting itself in blotches, pimples, eruptions, salt rhum and other blotches of the skin, is but too aptly and by to infect the delicate tissues of the lungs also, and result in ulceration thus ending in consumption. Dr. Pierce's Golden Medical Discovery will not only cleanse the system of the impurities of the blood and cast it out of the system. All druggists.

Geology in High School.

This morning Prof. Geo. Lesquerieux, of the United States geological survey, made a few remarks to the pupils of the high school department on geology. He spoke of the American association and of the advantage of a membership in that society. He said that should the school see fit to form a chapter he would donate a cabinet of specimens and a number of reference books. This afternoon at 1:45 he delivered a short lecture to the class of 80 on the various stages of the earth's development especially describing the various formations found in Wisconsin.

The professor has made a life study of fossil plants and has described more specimens than any other man in the United States survey (since 1880) and was employed by the state of Illinois during the nine years preceding that, excepting one year spent in the army.

I feel that I cannot say too much for Atkin's phos. I do not let an opportunity pass where I can recommend it. It has done so much for me in curing me of a severe attack of rheumatism. M. F. Shrook, 672 West Lake street, Chicago.

METHODIST CONFERENCE.

Prohibition First, Last, and All the Time—No Middle Ground for License.

Some of the Appointments.

The annual session of the Wisconsin conference, which convened in Wausau last Thursday, completed its work and adjourned at a late hour last evening. About two hundred Methodist clergymen were in attendance, Bishop Bowman presiding.

The closing hours were devoted to the discussion of the temperance question and a resolution was passed favoring prohibition and condemning the license system as inadequate to check the evil. Quite a division of sentiment prevailed on the license question, but a large majority of the members of the conference have adopted political prohibition as a hobby and by careful nursing have come to consider it as the one and only great question of national importance. The sincerity of these Methodist preachers is acknowledged, but the lack of good judgment and hard common sense exhibited calls for the criticism of the church at large, which they are receiving in unstinted measure, that Methodist has suffered and will continue to suffer, as a result of this radical movement on the part of the ministry, is already apparent, and occasions profound regret on the part of her church members. With a membership in the United States of a million and three quarters, a round number, this pioneer church has gained a prestige which is acknowledged as a power for good and yet it is possible, and not improbable, that the mission of this strong organization will suffer materially as the result of misdirected zeal on the part of her clergy. Common sense and christianity combine a mighty force, and should never be separated in the work of christian evangelization.

The readers of the Gazette will be interested in the following appointments: The Rev. Olin A. Curtis, formerly pastor of Court Street church, returns to Sumnerfield, Milwaukee; the Rev. C. E. Goldthorpe goes to Manitowish; the Rev. Henry Paville comes to his third year at Algonza street, Oshkosh; the Rev. Frank Pesco is stationed at Sharon; the Rev. Thomas Walker will fill the pulpit of the First M. E. church, of this city for the coming year; the Rev. C. B. Wilcox, former pastor of the Court Street M. E. church, goes to the First M. E. church of Oshkosh, and the Court Street church is left to be supplied. This places the latter church in a position of uncertainty, but it is safe to assume that the society will be favored with a strong and acceptable pastor.

The next session of the conference will be held at Berlin.
